

Comic Book Categories

How every comic is classified, browsed, and filtered. All values are read off the front cover by the AI and can be corrected on the Edit screen — your corrections always win.

01 AGE

Derived automatically from the cover-date year — never stored, never edited. Fix the year and the age fixes itself.

AGE	YEARS
Golden Age	1938 – 1955
Silver Age	1956 – 1969
Bronze Age	1970 – 1984
Copper Age	1985 – 1991
Modern Age	1992 – today

A comic dated before 1938, or with no year yet, sits outside the age buckets and stays reachable through “View all” under its publisher.

02 PUBLISHER

Read from the cover (Marvel, DC, Image, Dark Horse, ...). Free text — every publisher that appears in the collection becomes a browse group automatically.

03 FORMAT

What kind of publication it is. Fixed list of eight:

Regular Issue

Annual

Special

One-Shot

Giant-Size

Graphic Novel

Trade Paperback

Magazine

04 GENRE

The dominant genre. Fixed list of eight:

Superhero

Horror

Sci-Fi

Western

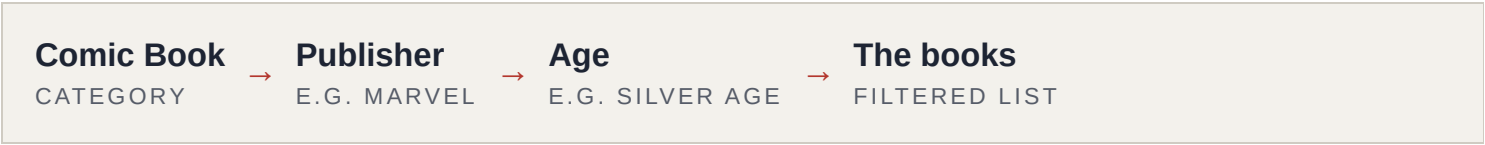

Romance

War

Humor

Crime

• **BROWSING ORDER**

Format, Genre, Comic Age, and Publisher are also dropdown filters on the items list, so any slice is reachable directly.

• **EVERY COMIC ALSO RECORDS**

Title	The series name — the identifying field
Issue Number	Shown as “#129” in listings
Year	The cover-date year — the source of the age
Variant	Variant-cover designation, when one applies
Condition Notes	Free-text condition observations
Values	Estimated range, purchase price, insurance value

ON THE WISHLIST: the key-issues watchlist — register known key books (Amazing Fantasy 15, Hulk 181, ...) and any match gets flagged on sight, the comics counterpart of the ★ key-names list for cards. Approved, parked for a future milestone.
